BIOGRAPHY

I was born on the 29th of June, 1979, in Srisaket, Thailand. I finished my secondary school from Sirinthorn school in 1996 in Surin. I received my Bachelor's Degree in Biology from Department of Biology, Faculty of Science, Srinakarinwirot University in 2002. After that, I have been a studying in the Master degree in Genetics, Department of Botany, Faculty of Science, Chulalongkorn University since 2002. An incompleting version of this work was presented as a poster at the 29th Congress in Science and Technology of Thailand (STT 2003) held at KhonKhean University in October 2003, and at the 12th annual academic symposium of the Faculty of Science, Chulalongkorn University in March 2004.
