VITA

Miss Pattra Lapikanon, the only child of Mr. Pattana and Mrs. Boonnak Lapikanon, was born on February 9, 1959. She graduated from Nontree Vittaya school in 1975 before entering Kasetsart University, Bangkok. In 1979, She received her Bachelor's degree in Chemistry from this University. Since 1980, She has been a graduate student in the Organic Chemistry, Faculty of Science, Chulalongkorn University. During her Master's degree study, on January, 1981, she was awarded a UNESCO fellowship under the Exchange of Scientists Scheme Southeast Asian Network for the Chemistry of Natural Products, to do research at the Natural Products Research Institute, Seoul National University Seoul, Korea. The fellowship was extended by the Korean National Commission for UNESCO to enable her to spend 8 months in Korea and finished her research project.
