## VITA

Mr. Pisit Ariyadejwanich was born on February 16, 1978 in Bangkok, Thailand. He studied in primary and secondary educations at Premrudeesuksa School and Wat Suthi Wararam School, respectively. In 1999, he received the Bachelor Degree of Engineering (Chemical Engineering) from Chulalongkorn University with the 2<sup>nd</sup> class honor. After that, he continued to study in Ph. D. program under The Royal Golden Jubilee Scholarship, and he graduated in 2003 with the dissertation entitled “Production and Application of Activated Carbon from Waste Tires”.
