VITA

Miss Kornvalai Prajuntaboribal was born on December 11, 1961 in Bangkok. She received her High School Certificate from Triamudom Suksa School in 1979 and her B.Sc. in Chemistry from Faculty of Science, Mahidol University in 1982. Since then, she has been a graduate student in Inorganic Chemistry at Chulalongkorn University and received a financial support from the University Development Commission.
