BIOGRAPHY

Mr. Tayagorn (Chanwut) Charuchaimontri born in Bangkok on February 12, 1978. After studying at Suankularb Wittayalai during his high school period, he entered Chulalongkorn University in the Faculty of Engineering in 1995. Four years later, he received the Bachelor Degree in Civil Engineering (2nd class honors) and began his Ph.D. study also at Chulalongkorn University. He was granted the Royal Golden Jubilee Ph.D. scholarship from Thailand Research Fund. He spent six months in the University of Stuttgart, Germany, to do a co-research, which is a part of his Ph.D. dissertation in the year 2002-2003. In year 2004, he changed his first name from Chanwut to Tayagorn. During study in Ph.D., he was a committee of Young Members Committee of the Engineering Institute of Thailand Under H.M. the King's Patronage (EIT) in year 2000-2005. He finished his study and received the Ph.D. in Civil Engineering in 2006 when he was 29.
