Acknowledgment

It is not possible to express adequate gratitude to the individuals who have helped the author in doing this research. The author is deeply indebted to Alan E. Guskin, not only for his supervision of this Thesis, but also for his kindness, comfort, and encouragement. The author would like to express her gratitude to Dr. Surang Kowtrakul, for her kindness help in correcting the questionnaire and her critical reading of the Thesis; and to Mr. Pattaya Saiboo, whose suggestions and criticism proved to be of invaluable aid. She would also like to express her thanks and deep appreciation to Judith Guskin, and to Barbara and Michael Mary for their wonderful help in correcting the author's English from the first draft to the final draft.

Thanks are also due to those who helped in gathering the data and to the subjects whose cooperation made this study possible. Special thanks go to Miss Vinie Sunthanarangsum who made the time available to type this Thesis.
