

APPENDICES :

Appendix I

<i>Curriculum for Leishmaniasis EDPT Training at Harinagar Primary Health Center.</i>					
General Objectives of Training : To improve EDPT knowledge, and practice skills of health workers who interact with Leishmaniasis clients.					
SN.	Subject	Specific Objectives	Contents	Methods	Materials
1.	Introduction	After completion of this chapter, participants will be able to describe :	Introduction of trainers & participants	Partners Discussion	None None
		1. Objectives of Training course	Objectives of training.		
		2. Expectation of Training course.	2. Schedule orgn. 3. Tra. logistics	Lecture Lecture	Traini ng sc
		3. Rules of Training	4. Tr. rules 5. Participants hand Book	Discussion Presents.	None Book

Appendix I-cotd.

Curriculum Of Training for EDPT, Harinagar PHC.

General Objectives of Training : To improve knowledge and practical skills of health workers who interact with people at risk of Leishmaniasis.					
SN	Subject	Specific objectives	Contents	Methods	Materials
2.	Introduction of EDPT program	Describe principle of Training Purpose of Training Trainings role Qualities of Training knowledge/skills -steps in case detection	Principle of training Purpose of role of Tr. Characteristics	Lecture Discussion Discussion Lectures	News print None Newsprint None None.

Curriculum for EDPT Training in Harinagar

Primary Health Center

General Objectives : To improve EDT. Knowledge and practical skills of CHWS, who interact with people at risk of Leishmaniasis.					
SN	Subject	Specific objectives	Content	Methods	Materials
3.	Training	After completion of	Methods	Discussion	IEC materials
	Methods	Training, participants			
	Review	will describe ;	Advantage	Lectures	Tr. Manual
		Clinical, Serological,	Disadvantage		
		parasitological methods	Problems		
			Constraints.		
SN	Referral	Principle of Referral	Knowledge of	Discussion	None
4.	Process	Process	Referral process	Brainstorming	None
	Review	Need of Referral	Use of referral slip	lectures	Ref. slip
SN	Subject	Specific Objectives	Contents	Methods	Materials
5.	Disease	To describe disease	Epid. of disease	Exercise	None
	Aspect	transmission	Review	Discussion	None
		Clinical features			
		Describe Health	Health Education	Lectures	None
		Education.			
SN	Subject	Specific objectives	Contents	Methods	Materials
6.	Control	How to achieve	Mechanism	Lectures	None
	Measures	control measures		Discussion	None
	Explaining	Use of control	Advantage	Exercise	None
		Measures	Disadvantage		

Curriculum for EDPT Training at Harinagar PHC.

General Objectives : To improve EDPT knowledge and practical skills of health workers, who interact with people at risk of disease / KA clients.					
SN Subject Specific Objectives Contents Methods					
Materials					
7.	Treatment aspect explaining	Describe need of treat Principles of Training Side-effects of Training	Need assesment Protocol of treat side- effects	Lectures Exercise Discussion	None None None
8.	Complica- tions from disease.	Describe complications of disease Consequences of complications	List of complications. List of consequences	Exercise Discussion Lectures.	None None None
9.	Interpersonal communica- tions	Demonstrate effective listening skills Use of non-technical language	Active listening Verbal encourage using simple language.	Exercise Role play Exercise Demonstr- tions.	None None None None

Appendix II

<i>Potential Members of Project Implementation Team :</i>		
<i>Name</i>	<i>Office</i>	<i>Status</i>
1. Director	National Health training Center	Chairman
2. Director	National Health Education/ Information/Communication Center	Member
3. Director	Epidemiology & Disease Control Division	Member
4. Senior Tr Officer	National Health Training center	Member
5. EDC officer	Epidemiology & Disease Control Division	Member
6. Chief District Health Officer	District Health Office	Member
7. Medical Officer Incharge	Harinagar PHC	Member
8. Researcher		Member Secy.

Appendix III

Training for early case detection and prompt treatment		
Check- List		
Behavioral Change Evaluation during EDPT service		
Observer Name :		
Provider Name :		
Date :		
A. General Case Detection		
SN	Activities	Condition
1.	Is comfortable/co-ordiale with Leismaniasis clients.	
2.	Is knowledgeable of case detection methods	
3.	Listen to people actively/attentively	
4.	Give in brief important points about the case detection methods.	
5.	Use local/simple language to show interest and concern for clients.	
6.	Ask questions appropriately.	
7.	Ask questions that need more answers than saying YES/NO.	
8.	Encourage people at risk to ask questions	
9.	Use language that client can understand.	
10.	Give specific/concrete instructions to client.	
11.	Explain in many ways to make client understandable	
12.	Use visual aids	
13.	Ask patient to repeat what they understand.	

Appendix IV

Training for Early case detection and treatment

Training Process Evaluation Questionnaires for Health Workers.

A. To rate opinion of course component using following criteria.
a. Strongly disagree, B. Disagree, C. No opinion, D. Agree, E. Strongly Agree.
1. Pre-Test questionnaires helped me to study more effectively.
2. The role-play on EDPT training was useful in improving skills.
3. There was sufficient time schedule for practicing skills.
4. I am now confident in case detection.
5. I am now confident in managing patients through referral.
6. Training approach used in this course made it easier for me to learn more in detecting cases and managing them for treatment.
B. To rate your opinion of the training methodologies using following scales
a. Strongly Disagree, B. Disagree, C. No opinion, D, Agree, E. strongly Agree.
1. The trainer clearly stated their learning objectives.
2. The trainer communicated clearly and effectively.
3. The information presented in the course was new.
4. The trainer used many Audio-Visual materials.
5. The trainer was enthusiastic about subject they taught.
6. The course content was more theoretical.

7. The session was well organised.
8. The trainer asked questions and involved me in the session.
9. The content of the course was useful to my work.
10. The course made me feel more competent and skillful in my work.
Additional Comments :
1. What did you like most in training?
2. What did you dislike most in training?
3. Did the course achieve its objectives?
4. What topic should be added to improve the course?
5. What topic should be deleted to improve course?

Appendix V

<p>Training for Case Detection and Treatment</p> <p>Pre- Test and Post-Test Questionnaires</p> <p>For Health Workers</p>
To put a tick mark (/) in the right statement of the followings :
1. Training for Case detection and treatment,
a) An objective and honest attempt of service with regards to case detection.
b) An interaction for need assesment of people in the community to make decisions to choose a better method for case detection.
c) All of above.
d) None of above.
2. Difference between Active and Passive Case Detection :
a) Active case detection is done in the field.
b) Passive case detection done in the hospital/clinics.
c) Passive case detection does not cover all cases.
d) Active case detection gives all picture of community cases.
e) All of above.
f) None of above.

Appendix VI

Focus Guide Lines for people at risk of Leishmaniasis
1. What you have heard of Leishmaniasis?
2. Where did you get this information?
3. Where you go when sick?
4. How far is the health facilities?
5. Do you visit health facilities?
6. Do you get advice from health personnel?
7. Did you see health workers?
8. Did health workers pay attention to your problems?
9. How many minutes they spent for you?
10. How was health workers behavior for you?
11. What language was used by HWS?
12. Where do you go when contracted disease?
13. Do you know where to go for treatment?
14. Do you know how this disease is caused?
15. Do you know the control measures?
16. Do you know if not treated people will die?
17. What provisions would you like to have at PHC to fight against problem?

Appendix VII

Data Collection Instruments :

(Semi-Structured questions)			
Part I- Respondents Back Ground Questions :			
A. Date of Interview			
B. Place of Interview			
C. Interviewer			
D. Patients/Clients name			
E. Address			
F. Age of Respondents- Day Month Year Not known.			
G. Education- Primary Secondary College level			
H. Relegion- Hindu, Muslims, Budhists, Christians.			
I. Marrital Status- Single, Married, Divorcee.			
J. Occupation-			
K. Family Size			
L. Socio-Economic Status - Good, Average, Poor.			

Part II- Question for Leishmaniasis :
A. Knowledge
1. How do you learn about Leishmaniasis?
2. Do you know signs and symptoms of disease?
3. Knowledge about Bed-Nets.
4. Knowledge of transmission of disease.
5. Knowledge of drugs for VL and duration of treatment.
6. Knowledge of side-effects of disease.
B. Attitudes :
1. Buying drugs from store
2. Consulting doctor or traditional healers.
3. Reporting to hospital or other places after being diseased.
C. Practice :
1. Use of Bed-Nets
2. Sleeping out-side on floor.
3. Cattlesheds close to living place

Part III Questions :
A. Source of Information :
1. Radio
2. News paper
3. Relative/Friends
4. Neighbor
B. How to detect disease :
1. By asking problem YES/NO
- Fever with enlarged abdomen
- Fever with black face
2. What steps you take for treatment :
- Call a doctor
- Call CHWS
- Refer to district hospital
- Inform PHC
3. Cost of service :
- Affordable Y/N
- Relieved after treatment Y/N
4. Side-Effects :
C. EDPT and Health Workers Behavior :
1. Did you get advice from PHC during this 12 months period?
2. Did health Workers pay attention to your problem?
3. What was the language used?
4. What was health workers behavior on your problem?

CURRICULUM VITAE

1. Name : Mishra Maha Nand.
2. Date of Birth : 11.05.1950.
3. Sex : Hindu Male.
4. Nationality : Nepali.
5. Marrital Status : Married.

Educational Background :

1. (Medicine), 1974, India.
2. Fellow Surgery, 1984, India.
3. NPT Training, 1993, Indoesia.
4. Vsc. Training, 1994, Bangladesh.
5. PHC. Training, 1996, London.

Experiences :

1. Chief of District Health Services, Sunsari, Nepal, 1990-1998.
2. Medical Superintendent, HMG Health Services, Nepal, 1986-1990.
3. Senior Medical Officer, HMG. Health Services, Napal, 1984-1986.
4. Registrar, Dept. of Surgery, Koshi Zonal Hospital. Nepal, 1982-1984.
5. Medical Officer, HMG Health Services, Nepal, 1976-19800.
