CURRICULUM VITAE

Name: Mr. Rapeephun Dangtungee

Date of Birth: May 24, 1977

Nationality: Thai

University Education:

1997-1998 Bachelor Degree of Industrial Education, Pathumwan Institute of Technology, Bangkok, Thailand.

1999-2001 Master Degree of Materials Engineering, King Mongkut's University of Technology Thonburi, Bangkok, Thailand.

Working Experience:

2002-present Position: Lecturer
Institute: Department of Industrial Chemistry, Faculty of Applied Science, King Mongkut's Institute of Technology North Bangkok, Bangkok, Thailand

Publications:

1. Dangtungee, R., Yun, J., Supaphol, P., (2005) Melt rheology and extrudate swell of calcium carbonate nanoparticle-filled isotactic polypropylene. Polymer testing, 24(1), 2-11 p.
2. Dangtungee, R., Dasai, S., Tantayanon, S., Supaphol, P., (2006) Melt rheology and extrudate swell of low-density polyethylene/ethylene-octene copolymer blends. Polymer testing, (accepted).
3. Taepaiboon, P., Junkasem, J., Dangtungee, R., Amornsakchai, T., Supaphol, P., (2006) In situ micro fibrillar-reinforced composites of isotactic polypropylene (iPP)/recycled poly(ethylene terephthalate)(rPET) system and effect of compatibilizer. Journal of applied polymer science, (accepted).
4. Dangtungee, R., Mit-uppatham, C., Supaphol, P., (2006) Melt rheology and extrudate swell of sodium chloride filled low-density polyethylene: effect of content and size of salt particles. Journal of applied polymer science, (inpress).
5. Dangtungee, R., Supaphol, P., (2006) Observation of rheological properties and

- extrudate swell of iPP-TiO₂ nanocomposites. Journal of applied polymer science, (inpress).
6. Dangtungee, R., Supaphol, P., (2006) Observation of Shear, Elongational behavior and Extrudate swell of Nanometre Calcium Carbonate filled Polypropylene on Capillary Rheometer. Polymer testing, (inpress).
 7. Dangtungee, R., Supaphol, P., (2006) Melt fracture behavior of neat and titanium dioxide nanoparticle-filled isotactic polypropylene. Journal of applied polymer science, (inpress).

Presentations:

1. Dangtungee, R., Yun, J., Supaphol, P., (2004, December 1-3) Extrudate swell and melt rheology properties of calcium carbonate nanoparticle-filled isotactic polypropylene. Paper presented at The International Conference on Smart Materials, Chiangmai, Thailand.
2. Dangtungee, R., Supaphol, P., (2006, July 30-4) Melt fracture behaviour of neat and titanium dioxide nanoparticle-filled isotactic polypropylene. Paper presented at The International Conference on Nanoscience and Technology, Basel, Switzerland.
