BIOGRAPHY

Mr. San Assavapatchara was born on October, 23, 1962, at Amphoe Panatnikom, Changwat Chonburi, eastern Thailand. In the middle of 1985, after he got graduated in geology from Chiangmai University, he started his work with the lower southern operating office of Accelerated Rural Development (ARD) in field of ground water exploration in the lower peninsular Thailand. In 1986 to 1987, he joined with the engineering geological staff for the foundation improvement in the Mae Kuang Dam project, Amphoe Doi Saket, Changwat Chiangmai. Since 1988, he has been working with the Geological Survey Division, Department of Mineral Resources (DMR) dealing with geological mapping and legally consider to the public land exploitation of blasting rocks and lateritic soil excavation. Contemporaneously, he also present study in Master course in geology, Department of Geology, Faculty of Science, Chulalongkorn University.
