

DIRECTIONAL EAST - WEST ASYMMETRY
OF GROUND LEVEL COSMIC RAYS AT LATITUDE $13^{\circ} 46' N$

by

Supanich Pramatus

ACKNOWLEDGEMENTS

The author wishes to express her deep gratitude to Professor Peng Somanabandhu, Head of the Physics Department, for his interest in this project, and to Professor Charoen Dharmaphanija for his excellent advice, guidance and supervision in the course of this research.

Appreciation is extended to Mr. Vichitnarong Bhuggakupta for his advice, especially in the construction of the coincidence circuits, to Dr. Sippanondha Ketudat for his valuable suggestion in the preparation of the manuscript and to Mr. K. Yamakoshi of the Institute for Nuclear Study, University of Tokyo for his communication concerning coincidence circuits.

The research was supported in part by the National Research Council of Thailand.

Supanich Pramatus.

ABSTRACT	iii
ACKNOWLEDGEMENTS.....	iv
LIST OF TABLES	vi
LIST OF ILLUSTRATIONS	vii
 Chapter	
I. INTRODUCTION	1
II. INTERACTION OF COSMIC RADIATION	4
1. Electromagnetic Interactions	
2. Nuclear Interactions	
III. COSMIC RAY VARIATIONS	17
1. Geomagnetic Effects	
2. Shadow Effect	
3. Latitude Effect	
4. Longitude Effect	
5. Temperature Effect	
6. East-West Asymmetry	
IV. EXPERIMENTAL RESULTS	27
1. Apparatus	
2. Correction for Statistical Fluctuation.	
3. Observed Data	
V. DISCUSSION OF RESULTS AND CONCLUSION	46
APPENDIX	47
BIBLIOGRAPHY	49

LIST OF TABLES

TABLE

1. The Total Counts with the Telescopes in Position I and II	39
2. The Asymmetry at Various Zenith Angles	40
3. The W-E Ratios and W-E Differences at Various Zenith Angles	41

LIST OF ILLUSTRATIONS

Figure	Page
1. Vertical Intensities of the Cosmic Radiations, as a Function of Atmospheric Depth	2
2. Fractional Energy Loss by Collision, $-\frac{1}{U} \left(\frac{dE}{dt} \right)_{col}$, and Fractional Energy Loss by Radiation, $-\frac{1}{U} \left(\frac{dE}{dt} \right)_{rad}$ for Electrons, per Radiation Length of Air or Lead	8
3. The Total Probability per Radiation of Air for Compton Scattering (μ_{com}), for Pair Production (μ_{pair}), and for either Effect ($\mu_{com} + \mu_{pair}$)	10
4. Forbidden Regions of the Meridian Plane for Several Values of B	21
5. An Allowed Cone	22
6. The Shadow Effect of the Earth	23
7. Counter Telescopes Mounted on the Rotating Frames	27
8. Block Diagram of the Twofold Coincidence Telescope	28
9. The Picture of the Apparatus	29
10. Resolution Angles in the Vertical Direction and in the Complementary Plane	30
11. The Plateau of a G.M. Counter Used in this Measurement	32
12. The Feedback in Small - Signal Amplifier	33
13. Wave Shaping Circuit	34

Figure	Page
14. Coincidence Circuit	35
15. Discriminator and Scaler	36
16. East-West Asymmetry at Various Zenith Angles	42
17. East-West Intensity Distribution Due to the Directional Intensity at Ground Level, $\alpha = 15^{\circ} 46' N$	43
18. West-East Ratio at Various Zenith Angles	44
19. West - East Difference vs. Zenith Angles	45
