## CURRICULUM VITAE

**Name:** Ms. Rapee Gosalawit

**Date of Birth:** November 29, 1980

**Nationality:** Thai

**University Education:**

1999-2002 Bachelor Degree from Chemistry Department, Faculty of Science, Khon Kaen University, Khon Kaen, Thailand.

**Honors and Scholarship:**

1. The Development of Promotion of Science and Technology Talents Project (DPST) from the Institute for the Promotion of Teaching Science and Technology (IPST), Thailand.
2. First Class Honor, Department of Chemistry, Faculty of Science, Khon Kaen University (2002)
3. Department Best Student Award, Department of Chemistry for 4 years, Faculty of Science, Khon Kaen University (1999-2002)
4. Best Performance Student Award, Tab Foundation, (2002)
5. Scholarship for the participation in XXIV EMS Summer School on Membranes for Reactive Processes, University of Genoa, Genoa, Italy, September 10-14, 2007.
6. First poster prize for the outstanding contribution at the Chemical Nanotechnology Talks VIII (CNT VIII) for Energising a Sustainable Future, Frankfurt Exhibition Hall, Frankfurt, Germany, November 20-23, 2007.

**Publications:**

1. Gosalawit, R., Chirachanchai, S., Manuspiya, H., and Traversa, E. (2006) Krytox-Silica-Nafion<sup>®</sup> composite membrane: A hybrid system for maintaining proton conductivity in a wide range of operating temperatures. *Catalysis Today*, 118, 259-265.
2. Gosalawit, R., Chirachanchai, S., Shishatskiy, S., and Nunes, S.P. (2007) Krytox-Montmorillonite-Nafion nanocomposite membrane for effective methanol crossover reduction in DMFCs. *Solid State Ionics*, 178, 1627-1635.

3. Gosalawit, R., Chirachanchai, S., Basile, A., and Iulianelli, A. Thermo and electrochemical characterization of Sulfonated PEEK-WC membranes and Krytox-Si-Nafion<sup>®</sup> composite membranes. Desalination, Accepted.
4. Gosalawit, R., Chirachanchai, S., Shishatskiy, S., and Nunes, S.P. Sulfonated montmorillonite (SMMT)/sulfonated poly(ether ether ketone) (SPEEK) nanocomposite membrane for direct methanol fuel cells (DMFCs), Journal of Power Sources, In revision.

**Proceeding:**

1. Gosalawit, R., Chirachanchai, S., Manuspiya, H., and Traversa, E. (2005, September 11-14) Development of New Polymeric Hybrid Membrane for High Thermal Stability Polymer Electrolyte Membrane Fuel Cells (PEMFCs). Proceeding of the 7<sup>th</sup> International Conference on Catalysis in Membrane Reactors, Cetraro (CS), Italy.
2. Gosalawit, R., Chirachanchai, S., Shishatskiy, S., and Nunes, S.P. (2007, June 4-6) Sulfonic acid functionalized montmorillonite/sulfonated PEEK composite membrane for direct methanol fuel cells (DMFCs). Proceeding in Marie Curie Workshop, New Materials for Membranes, GKSS Forschungszentrum, Geesthacht, Germany.
3. Gosalawit, R., Chirachanchai, S., Shishatskiy, S., and Nunes, S.P. (2007, September 10-14) Krytox-Montmorillonite-Nafion<sup>®</sup> nanocomposite membrane for effective methanol crossover reduction in DMFCs. Proceeding in XXIV EMS Summer School on Membranes for Reactive Processes, University of Genoa, Genoa, Italy.
4. Gosalawit, R., Chirachanchai, S., Shishatskiy, S., and Nunes, S.P. (2007, November 20-23) Sulfonated montmorillonite (SMMT)/sulfonated polyether ether ketone (SPEEK) nanocomposite membrane for DMFC systems. Proceeding in the Chemical Nanotechnology Talks VIII (CNT VIII) for Energising a Sustainable Future, Frankfurt, Germany.

**Presentations:**

1. Gosalawit, R., Chirachanchai, S., Manuspiya, H., and Traversa, E. (2005, September 11-14) Development of New Polymeric Hybrid Membrane for High Thermal Stability Polymer Electrolyte Membrane Fuel Cells (PEMFCs). Paper

presented at the 7<sup>th</sup> International Conference on Catalysis in Membrane Reactors, Cetraro (CS), Italy.

2. Gosalawit, R., Chirachanchai, S., Shishatskiy, S., and Nunes, S.P. (2007, June 4-6) Sulfonic acid functionalized montmorillonite/sulfonated PEEK composite membrane for direct methanol fuel cells (DMFCs). Paper presented at Marie Curie Workshop, New Materials for Membranes, GKSS Forschungszentrum, Geesthacht, Germany.
3. Gosalawit, R., Chirachanchai, S., Shishatskiy, S., and Nunes, S.P. (2007, September 10-14) Krytox-Montmorillonite-Nafion<sup>®</sup> nanocomposite membrane for effective methanol crossover reduction in DMFCs. Paper presented at XXIV EMS Summer School on Membranes for Reactive Processes, University of Genoa, Genoa, Italy.
4. Gosalawit, R., Chirachanchai, S., Shishatskiy, S., and Nunes, S.P. (2007, November 20-23) Sulfonated montmorillonite (SMMT)/sulfonated polyether ether ketone (SPEEK) nanocomposite membrane for DMFC systems. Paper presented at the Chemical Nanotechnology Talks VIII (CNT VIII) for Energising a Sustainable Future, Frankfurt, Germany.
