APPENDICES

Appendix A Calibration of sulfur compounds and sample of calculation.

A1 Calibration of sulfur compounds

From

$$n_i * RMR_i = A_i$$

$$n_{std} * RMR_{std} = A_{std}$$

$$\text{So, } RMR_i = \frac{A_i * n_{std} (RMR_{std})}{A_{std} * n_i}$$

$$Y_i = \frac{\frac{A_i}{RMR_i}}{\sum_{i=1}^n \left[\frac{A_i}{RMR_i} \right]}$$

Give $RMR_{std} = 1$

A_i = Peak area of component i

n_i = Concentration of component i (weight basis)

A_{std} = Peak area of standard component

n_{std} = Concentration of standard component (weight basis)

RMR_i = Respond factor of component i

RMR_{std} = Respond factor of standard component

Y_i = Concentration of component i from calibration

A2 Sample of calculation

A2.1 Calculation of adsorption amount of sulfur compound on zeolite

$$A = \frac{F * C_i}{100} - \left[\frac{C_f}{100} * \frac{F * (100 - C_i)}{(100 - C_f)} \right]$$

A = amount of sulfur compound adsorbed on zeolite (g)

C_i = sulfur concentration before adsorption (%)

C_f = sulfur concentration after adsorption (%)

F = amount of solution before adsorption (g)

Example: Adsorption of dibenzothiophene in decane on NaY zeolite at room temperature

A2.1.1 To convert concentration of sulfur compound before and after adsorption from ppm to percent

$$C_i = 2002 \text{ ppm} = 2002/10000 = 0.2002 \text{ percent}$$

$$C_f = 285 \text{ ppm} = 285/10000 = 0.0285 \text{ percent}$$

A2.1.2 To calculate the amount dibenzothiophene adsorbed on NaY zeolite

From, F = 34.24 g

So,

$$A = \frac{34.24 * 0.2002}{100} - \left[\frac{0.0285}{100} * \frac{34.24 * (100 - 0.2002)}{(100 - 0.0285)} \right] = 0.0588 \text{ g}$$

A2.1.3 To convert the amount of dibenzothiophene adsorbed on NaY zeolite to millimole

Molecular weight of dibenzothiophene = 184.26 mol/g

$$A = 0.0588 \text{ g} = (0.0588/184.26)*1000 = 0.3191 \text{ millimole}$$

A2.1.4 To divide the amount adsorbed dibenzothiophene on zeolite with the amount of zeolite

From, NaY zeolite = 0.3941 g

So,

The amount of dibenzothiophene adsorbed on NaY zeolite

$$= 0.3191/0.3941$$

$$= 0.809 \text{ mmol/g}$$

Appendix B Experimental data.

Table B11 Effect of fuel to adsorbent weight ratio on benzothiophene adsorption at 25 degree centigrade

Zeolite	Fuel to adsorbent Weight ratio	Initial Concentration(ppmw)	%RSD	Final Concentration(ppmw)	%RSD	Solution Amount(g)	Adsorbent Amount(g)	Adsorbed Amount(mmol/g)
*NaX	85	3000	-	1157	-	-	-	1.113
NaX	40	3036	0.46	337	1.63	34.38	0.8596	0.804
NaX	20	3021	0.44	53	5.72	34.19	1.7091	0.442

Zeolite	Fuel to adsorbent Weight ratio	Initial Concentration(ppmw)	%RSD	Final Concentration(ppmw)	%RSD	Solution Amount(g)	Adsorbent Amount(g)	Adsorbed Amount(mmol/g)
*NaY	85	3000	-	1302	-	-	-	1.05
NaY	40	2984	0.28	344	0.21	34.50	0.8632	0.786
NaY	20	3000	0.09	50	2.00	34.65	1.7341	0.439

*: The adsorbed amount is calculated from adsorption isotherm at fuel to adsorbent weight ratio 85

Table B12 Effect of fuel to adsorbent weight ratio on dibenzothiophene adsorption at 25 degree centigrade

Zeolite	Fuel to adsorbent Weight ratio	Initial Concentration(ppmw)	%RSD	Final Concentration(ppmw)	%RSD	Solution Amount(g)	Adsorbent Amount(g)	Adsorbed Amount(mmol/g)
*NaX	85	3000	-	747	-	-	-	1.01
NaX	40	3012	0.10	106	0.00	34.36	0.8610	0.629
NaX	20	3021	0.17	30	4.71	33.44	1.6715	0.324

Zeolite	Fuel to adsorbent Weight ratio	Initial Concentration(ppmw)	%RSD	Final Concentration(ppmw)	%RSD	Solution Amount(g)	Adsorbent Amount(g)	Adsorbed Amount(mmol/g)
*NaY	85	3000	-	916	-	-	-	1.02
NaY	40	3019	0.62	117	1.97	33.63	0.8413	0.629
NaY	20	3040	0.10	29	2.48	33.40	1.7217	0.326

*: The adsorbed amount is calculated from adsorption isotherm at fuel to adsorbent weight ratio 85

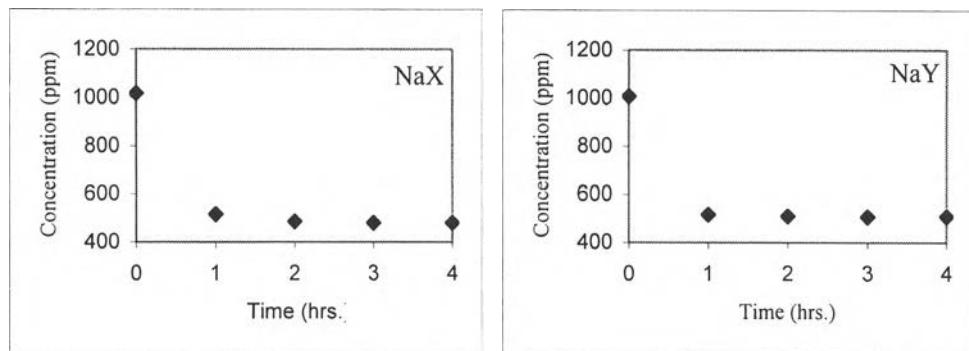

Figure B1 Adsorption of 3-methylthiophene in isoctane on zeolites.

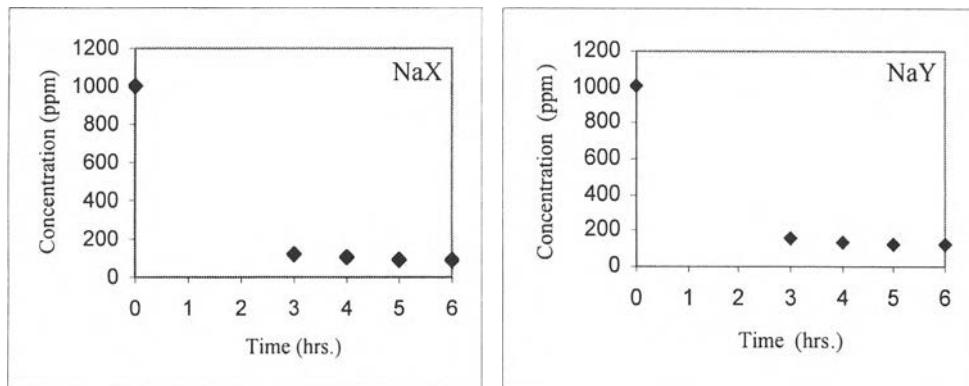

Figure B2 Adsorption of benzothiophene in isoctane on zeolites.

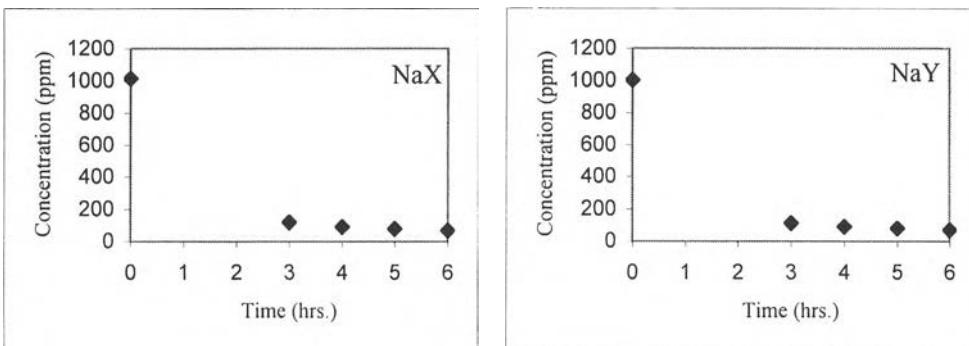

Figure B3 Adsorption of dibenzothiophene in decane on zeolites.

CURRICULUM VITAE

Name: Mr. Jittapong Chansa

Date of Birth: March 14, 1980

Nationality: Thai

University Education:

1998-2002 Bachelor Degree of Science in Chemical Engineering, Faculty of Science, Chulalongkorn University, Bangkok, Thailand
